Skills:

JavaScript (ES6+)	HTML	CSS/SASS	TypeScript	Angular	HTTP	REST API
WebStorage	Algorithms		Data structures	Event Loop		OOP
Semantic markup	Adaptive markup		Responsive markup	BEM		VSCode
NPM	Webpack	Git & GitHub	DevTools	Figma		Perfect Pixel

About me:

I'm looking for my first job as a frontend developer. Until 2021 I dealt with logistics issues in a trading company. My passion for programming began with the need to optimize a frequently recurring work task. I wrote a small program for calculating order delivery parameters and used it actively.

From my previous profession to a new one I'm transferring my ability to work in a multitasking environment and meeting deadlines.

In my free time I do physical activities and play guitar in the fingerstyle technique.

Education and Experience:

September 2021
— May 2022

Student at Rolling Scopes School (<https://rs.school/>)

During the learning and implementation of training projects I gained experience in such areas as:

- **adaptive layout of web applications and adding logic to it in JavaScript/TypeScript;**
- **team development;**
- **interaction with Git;**
- **solving algorithmic tasks (250+ completed kata on codewars.com);**
- **preparing presentations.**

Certificate of the JavaScript/Frontend Course: [link](#)

Certificate of the Angular Course: [link](#)

Languages: English - B1, Russian, Belarusian
