JavaScript (ES6+)   HTML   CSS/SASS   TypeScript   Angular   HTTP   REST API   WebStorage   Algorithms   Data structures   Event Loop   OOP   Semantic markup   Adaptive markup   Responsive markup   BEM   VSCode   NPM   Webpack   Git & GitHub   DevTools   Figma   Perfect Pixel

About me:

I'm a switcher and I'm looking for my first job as a frontend developer.

Previously I dealt with delivery and customs clearance issues in a small trading company. One day I realized that I was spending too much time on one repetitive work task, and decided to optimize it. With some knowledge from the university computer science course in half with stackoverflow, I created my own solution for calculating of customer order parameters. There were some flaws and bugs in it, but despite that, how it saved me time! Since then, I have been constantly haunted by the question of what I actually want to do in life.

The turning point in the decision to change professional activity was my moving. I left logistics in Minsk, and in St. Petersburg I joined a frontend course of Rolling Scopes School, devoting all my time to learning.

Most of all in the web development I am inspired by the unlimited ability to create cool things of any complexity with just one laptop and immediately see the result of my actions.

It's hard for me to say what I like the most – coding or layout design. A 50/50 ratio would be perfect for me.

I dream of becoming a part of a project and team, upgrade my skills and grow into more competent developer.

You can find more information about me and my projects on the webpage: https://elizaveta-ivanushenko.netlify.app/

Education and Experience:

September 2021 — May 2022	**Student** Rolling Scopes School (https://rs.school) Angular Course: https://rs.school/angular/ Certificate: https://app.rs.school/certificate/3nfa3a39 Frontend Course: https://rs.school/js/ Certificate: https://app.rs.school/certificate/peaz3656 Creating of web applications, solving algorithmic tasks, team development, interaction with Git, preparing presentations, passing training interviews, etc.
